

FOR IMMEDIATE RELEASE

Ekon Benefits Announces Enhanced Sponsor Access Portal

St. Louis, Missouri - August, 2016: St. Louis based firm, Ekon Benefits, has revamped their online Sponsor Access Portal, creating a state of the art system for Plan Sponsors to view all aspects their Plan. The enhanced Sponsor Portal uses the same proprietary software, Ekonnnect, used in MyEkon Participant Account Access which launched in August 2014.

Upon successful login, Plan Sponsors are greeted with a snapshot view of their Plan and portfolio performance over a selected time period with annualized rates of return. An accompanying graph depicts the change in total cash flow and total earnings. Intuitive left-hand navigation guides Plan Sponsors throughout the Portal with ease. Charts containing balance and transaction information include drill down menus to view detailed participant holdings by fund and source. With one click, charts can be copied to move to a spreadsheet. To assist with record maintenance, the Sponsor Portal contains participant information including name, address, date of hire, online access information, and more. In Plan Reports, Sponsors can easily run demographic, participant balance, cumulative contribution, and loan balance reports. Plan Summary information, enrollment materials, and historic statements are easily accessed when needed. Using Secure Send, Sponsors can securely transfer files and send messages to their Dedicated Plan Specialist.
